

## EXPERTS IN PROVIDING STRONG FOUNDATIONS FOR RISK MANAGEMENT DECISIONS

### THE ISSUES — STATISTICS RELATED TO RISK ASSESSMENTS

Cyberattacks are a common occurrence in almost every industry in today's digital age.

# 2,600,968,280

sensitive  
data records  
breached  
in 2017.

(BREACHLEVELINDEX.COM)

But many businesses aren't prepared to address a potential attack....

**Less than half** of IT security practitioners surveyed believe they **can protect their organizations from cyber threats**. That's down from 59% three years ago. (RAYTHEON.COM)

**Only 36%** of respondents say their senior leadership **sees cybersecurity as a strategic priority**, meaning less investment in technology and personnel. (RAYTHEON.COM)

**How much cybersecurity risk is your organization facing today?**  
**Are you confident that you can effectively measure and communicate the risks?**  
**And what steps should you take to mitigate your risks?**

SERVICES — WHY LBMC?

LBMC Security & Risk Services designs its security risk assessments to arm your organization with the information it needs to fully understand and effectively communicate your risks and compliance obligations.

OUR TEAM PROVIDES YOU WITH:

**Unparalleled Experience.**

Our team members draw on extensive experience and credentials to perform a single information security risk assessment that covers compliance with multiple frameworks and standards.

**An Extensive, Integrated Approach.**

Our cybersecurity professionals complete thorough interviews and document reviews, as well as technical analysis to provide you with a holistic picture of your cybersecurity program.

**Clearly Defined, Actionable Next Steps.**

Our reporting presents the information in a manner that is easily digested by business executives while also providing the details your IT team will need to remediate any weaknesses.

OUR EXPERIENCE — TESTED AND TRUSTED

Because of our experience and expertise, we know what you need to focus on and what you don't. As a result, our recommendations are more impactful, more efficient, and less costly.

Awarded as a Top Ten Cybersecurity Provider

Sole endorsed provider of security risk assessments for several state trade associations

To make risk assessments as easy and effective as possible, we developed a customized, cloud-based risk management software designed specifically for organizations like yours.
